

We knew there had to be a simpler e-citation solution.

So we created it.

The logo for ForCite PA consists of a yellow speech bubble icon to the left of the text "ForCite" in a white, sans-serif font, with "PA" in a smaller, white, sans-serif font below it.

ForCite
PA

An efficient e-citation solution designed to facilitate traffic citations with new, innovative features and back office software.

INTRODUCING PA FORCITE

PA ForCite is a simple, efficient, and affordable e-citation solution for law enforcement featuring license and registration scanning, intuitive auto-fill fields, photo attachment capability, and role based access. PA ForCite redefines efficiency with this all-in-one solution. Use PA ForCite as a standalone solution for issuing traffic citations, or add our proven ToCite solution to include parking enforcement. Either way, the task of issuing traffic citations and parking tickets will never be the same!

The PA ForCite Solution

With no per citation costs, and no annual maintenance and support fees, PA ForCite software creates an affordable, time and money saving partner that streamlines traffic enforcement, while integrating seamlessly into existing systems & databases.

Our low monthly per use fee is designed to insure that you purchase only what's needed to get the job done, and nothing more. When tough times demand that law enforcement executives "do more with less," PA ForCite can help. Let United Public Safety's innovative approach to citation management eliminate the need to enter paper citations into multiple databases. With PA ForCite, all your data is captured the moment the citation is issued. We like to think of it as a "force multiplier," that allows you to redirect existing manpower to where it's really needed! Here are just some of the features and benefits:

FEATURES

- ★ Driver's License & Registration Scan/Populate
- ★ Attachable, Photographic Evidence
- ★ Location-based (GPS) Technology capable
- ★ Easy to read weatherproof/archival printed citations
- ★ One time data capture
- ★ Lease or purchase options available
- ★ Cloud-based Total Citation Management System
- ★ Compatible with most existing MDT configurations, including laptops and tablets

BENEFITS

- ★ Accurate proof of violation for every citation. Fewer disputes.
- ★ Improved violation enforcement
- ★ Lower court costs/time
- ★ AOPC/JNET integrated
- ★ Faster citation issuance from start to finish
- ★ Eliminated redundant data entry = increased productivity
- ★ Affordable & effective solutions for departments any size. Monthly per user license fees allow you to purchase only what you need to get the job done.
- ★ Solution can be designed to suit your individual requirements & can integrate easily with existing RMS providers
- ★ Device tracking capable

The 3-inch Ticket

A ForCite offering, only on the N5Scan

With the N5Scan mobile device, law enforcement officers on foot, motorcycle, bicycle or horseback no longer have to carry ticket pads and handwrite arduous error-prone tickets. Using an integrated printer, the lightweight N5Scan produces 3"-wide tickets and warnings on the spot.

The built-in scanner can read identification barcodes with the touch of a button making for a vastly improved input and issuance process. The 5.7" display and rugged exterior allows officers to quickly issue tickets in any weather condition.

The UPsafety Cloud

All of our solutions are based entirely upon our secure "Cloud" application that enables MDT's and mobile devices to instantly sync citation data through the Internet.

Solutions do not require on-site servers, back up systems, updates or any other typical IT support. The only requirements are an Internet connection and a computer running a browser.

We and all of our partners utilize state-of-the-art security. Our Cloud has obtained the ISO/IEC 27001:2005 certification for information Security Management, so you can be sure your data is safe and secure 24 hours a day. For more about our security measures visit our website.

At United Public Safety, "Blue Lives Matter" is not a new concept. For years, we've dedicated ourselves to providing the law enforcement community with the most efficient means available to accomplish the dangerous task of traffic enforcement.

With ForCite Mobile, officers can issue traffic citations more efficiently, greatly reducing their exposure to the hazards associated with a road side stop. We appreciate those who protect and serve, and we're proud to do our part to keep them safe.

ABOUT UNITED PUBLIC SAFETY

At UPsafety, we get it; the need to complete a task or series of tasks in an efficient and cost-effective manner. We are on a mission to modernize traditional parking enforcement, citation writing, permit issuance and management. We incorporate the latest technology to simplify the ticketing process and back office.

SUPPORT

We strive to get our clients up and running in hours, not days. With our **24/7** support lines, no question or issue will go unanswered. From the street to the back office, we understand the issues and are ready to help. **United Public Safety provides exceptional support to your organization when you need it, day or night:**
